Type Mini

The sleek keyboard that's always at hand. Are you looking for a stylish, compact, and ergonomic keyboard? Then Type Mini is the perfect solution – choose between a wireless or wired version. It's easy to carry with you, takes up little space on your desk, and is also made from recycled plastic!

Benefits of Type Mini

If you're frequently on the move and need access to a sleek keyboard that doesn't take up much space on your desk – then Type Mini is the right choice for you. The wireless version has a powerful battery and can also be used with a cable if needed.

Type Mini is designed in Sweden, made from recycled plastic, and designed to provide you with an ergonomic hand position while working. With the foldable support legs, you can easily adjust the height both at the front and back, by 5 or 8 mm, to find your ideal hand position.

Our mission has always been to manufacture well-designed ergonomic products, and Type Mini is no exception!
